ORAL PRESENTATION

ORAL PRESENTATION		
Theme Area I: Environment in relation to Sustainable Agriculture and Water Conservation		
Theme Area II: Stress Adaptation and Crop Improvement		
Abstract Number	Abstract Title	Page Number
O-1	Multilocational juvenile evaluation of <i>Hevea brasiliensis</i> genotypes in the pipeline for drought and cold tolerance <u>M. B. Mohamed Sathik</u> , Suparna V. Ajith, Neethu N. Nair and Meenakumari, T.	145
O-2	Nutritional and biochemical profiling of immature dropped kinnow fruits <u>Manju Bala</u> , Mridula D., Simran Arora, Sonmati R.K., Shivani, Deepika Goswami and R. K. Vishwakarma	145
O-3	Physiological and biochemical responses in Guar: Recovery from drought stress and intrinsic variation among germplasm <u>Aman Verma</u> , Saurabh Swami, Devendra Singh, HR Mahla	146
O-4	A comparative investigation on radiated and non-radiated chitosan for enhancing productivity, digestibility and defence responses in <i>Festuca arundinacea</i> <u>Rajan Katoch</u> , Shalija, Sunil Dalvi, Munish Pandey and Asish Kumar	147
O-5	<i>Piper longum</i> L. endophytes improve growth and stress tolerance in multiple plant species <u>Sushma Mishra</u> , Laccy Phurailatpam, Pramod Kumar Sahu	147
O-6	Effect of water deficit on physiological-biochemical indexes and photosynthetic characteristics of young plants of natural rubber <u>Jayasree Gopalakrishnan</u> , Haritha, C., K. Annamalinathan and Sreelatha S	148
O-7	Amino acid profiling in chickpea crops through near-infrared spectroscopy (NIRS) a rapid and non-destructive approach <u>Nand Kumar</u> and Shakti Singh	148
O-8	Antioxidant and antimicrobial studies on silver nanoparticles of potato peels <u>Nupur Sinha</u>	149
O-9	Biochemical changes associated with storage period in sweet potato <u>Nilima Karmakar</u> and Patel Himani	149
O-10	“Smart” drug delivery: A window to future of sustainable translational drug development Abhilash Rana and <u>Seema Bhatnagar</u>	150
O-11	Micropropagation techniques for quality plant production of horticultural crop <u>Susmita Shukla</u>	151
O-12	Biochemical analysis of phycocyanin of Cyanobacteria as an indicator of mercury toxicity <u>S.D.S. Murthy</u>	151
O-13	Environment impact assessment on habitations due to pollution: Methodology <u>Thyagaraju Kedam</u>	152
O-14	Potential of natural farming for sustainable agriculture development under changing scenario of climate in North Western Himalayas <u>R. G. Upadhyay</u> and Munish Palia	152

O-15	Comparison of ethanol production in UP vs Maharashtra <u>Rammurti Singh</u> Sugarcane Dept., U.P	153
O-16	Mitigating roles of green-synthesized zinc oxide nanoparticles in combating water stress in the <i>Brassica oleracea</i> seedlings <u>Ajey Singh</u> and Shubhra Khare	153
O-17	24-Epibrassinolide improves salt tolerance mechanism in <i>Brassica juncea</i> L. cv. Varuna by regulating endogenous nitric oxide levels and antioxidant metabolism <u>Praveen Gupta</u> and Chandra Shekhar Seth	154
O-18	Ethnopharmacological investigation of an important ethnomedicinal plant <i>Artemisia nilagirica</i> for anticancer potential <u>Neha Sahu</u> , Priyank Chaturvedi, Vijaya Shukla	154
O-19	Antioxidative responses in two varieties of black gram (<i>Vigna mungo</i> L. var. DPU-88-31 and IPFD-99-13) to zinc deficiency and water stress. <u>Bhavana Gupta</u> and G.C. Pathak	155
O-20	Phytochemical screening, antioxidant, and antimicrobial activities of <i>Coptis teeta</i> Walls. against human pathogens Himashree Bora, Madhu Kamle and <u>Pradeep Kumar</u>	155
O-21	Patenting and technology transfer trends in green agriculture <u>Rajneesh Kumar Sharma</u> and Ritvik Sharma	156
O-22	Effects of altitude on phytochemical content and antioxidant activity of <i>Achyranthes aspera</i> L. roots <u>Asha</u> and Seema Devi	156
O-23	Extraction of hesperidin from immature dropped kinnow fruits by using different solvents Manju Bala, <u>Shivani</u> , Anusha Awasthi, Deepika Goswami, Mridula D. and R. K. Vishwakarma	157
O-24	Development and quality evaluation of protein rich pasta from pigeon pea <u>Deepika Goswami</u> , Manju Bala and Mridula D.	157
O-25	A comprehensive account on contamination and microbial detoxification of Cr(VI) in different extreme environmental conditions <u>Vikas Kumar</u>	158
O-26	Effect of protein-energy malnutrition on children in a rural population of western Uttar Pradesh Muhd. Zubair, <u>Pankaj Kishor Mishra</u> , Meenakshi Mishra and Umesh Kumar	158
O-27	Scenario of hydrogels and fermented organic manures on germination, growth, yield and quality of sugarcane (<i>Saccharum officinarum</i> L.) in India <u>Ram Kumar Singh</u> and Vineet Kumar Shukla	159
O-28	Harnessing marine genetic resources for sustainable agriculture: Mitigating climate change risks in the South China sea region <u>Devina Singh</u> and S.S. Bindra	159
